

Coresystems is a privately held field service software company helping mid- and large enterprises manage field services. Our solution brings together the right data at the right moment to delight customers and drive business results - all delivered in the cloud to any mobile device with artificial intelligence in real-time. We're transforming field service with cutting edge technology to help companies create perfect service moments and delight customers.

Our young and innovative company is looking for a

Senior iOS Developer

THE ROLE

We are looking for a talented and motivated engineer to join our team in the Berlin office who can hit the ground running and take our product to the next level, as we scale up and develop our business in our target markets. The engineers who are building our Core Platform work across the stack, always willing to go the extra mile to deliver the highest quality in enterprise software. As an iOS Developer for Coresystems you are building the application that will empower thousands of technicians in the field to carry out their work in an effective, efficient and safe way.

We are looking forward to your personal "core moments"!

CURIOUS ABOUT THE DAY-TO-DAY?

- Collaborating with team members working on a native codebase to solve complex field service problems
- Working closely with the Product Manager and UX teams to gain a deep understanding of the problem space and how the end user interacts with the application
- Performing a technical analysis of requirements, estimating and delivering new features
- Monitoring the performance of the application and focusing on continuously improving it
- Developing mobile applications and stay updated with the latest trends in mobile development

CURIOUS IF YOU'RE FIT?

- 5+ years iOS development experience working with Swift and Objective-C
- Experienced in architecting and building native iOS mobile applications from the ground up, with at least one app listed in the App store
- Operational experience in writing and maintaining unit test
- Good understanding of TDD and DDD is a plus
- Knowledge of React Native or willingness to learn
- Fluency in English (German is a plus)
- Comfortable working in a fast paced, lean development environment
- You are a solution-oriented think who loves discussing ideas and collaborating with team members to deliver intuitive solutions
- You take ownership of your work and see things through (You build it, you run it)
- You love exploring various technologies and pick the best tools for the job at hand (languages, libraries, platforms etc.)

JOIN US, BECAUSE

- This is an enthusiastic, cool company and we like to have fun – during working hours and outside them
- We really engage ourselves in developing our products and take pride in delivering results
- Stretching yourself to achieve challenging goals is satisfying
- In our open culture, we welcome other opinions and enjoy discussing solutions
- The flexible and dynamic working environment gives us a lot of freedom and enables us to perform at a high level
- We offer a very attractive compensation package
- Our skills and know-how are up-to-date thanks to the yearly training courses we attend. We also offer the opportunity to travel to our other locations for know-how sharing

Have we piqued your interest?

We look forward to receiving your application via email: recruiting-fsm@coresystems.net
